

User Flow:

Making a purchase.

Possible animation around cart notification.

Possible animation for purchase confirmation.

Step 1:

The user is able to see a cart notification that they can interact with. The user taps on the cart navigation item.

Step 2:

The user is able to review the item/s in their cart. Once they are happy with this information, they can proceed to the checkout process by tapping the CTA.

Step 3:

The user is able to review any details in relation to the total price, checkout details, user payment details and user address details.

Once the user is satisfied they can complete their purchase.

Step 4:

The user gets a confirmation screen and is able to return back to the home page.
